"Eclecticism is a degree zero contemporary culture: you listen to reggae, you watch western, you like Donald's at midday and cocaine at night, you wear Patek in Tokyo

and dress retro Hong Kong. Knowledge is itself of TV game shows. It is easy to find public for these works. What makes it setsch, it panders to the order which exists in the 'text' of the patron together, artist,

gallery owner, critic and public. I'd like one artwork in the Anythops - it's a bit relax. But this is a form of anything.

goes is the realism of money... This realism accommodates every tendency just as it satisfies every 'need' - so long as these tendencies and needs have buying power.

need to be shown when you speculate on raising your artistic and financial investigations. Doubly threatened by cultural politics on one side they art and book market on the other. As for taster, this is not from one or the other, this is to provide works of art. First, relate subjects

eyes of the public  
Jean-Francois Lyotard, The Modern Explains the Child, Barnard College

LOTTERY 5666

"The archaic 'tyranny of distances' between people who have been geographically scattered increasingly gives way to this 'tyranny of real time' that is not merely a matter for travel agencies, but especially for employment agencies, because the more the speed

of commerce grows, the more unemployment the nineteenth century, the muscular force of the 'laid off' when automation of the 'machines'
