Related Light for Plantin Series No. 110

12 PT. (11D) 11¾ SET U.A. 4 LINE M-1426

The 'MONOTYPE' PLANTIN family is based on prints supplied by the *Musée Plantin, Antwerp*, of types used in the Plantin Office in the latter part of the 16th century. The first Plantin adaptation (Series 110) was intended for art paper use but has proved well-suited to super-calendered and all smooth-surfaced papers. Series 113 is a lighter weight version for use on antique and cartridge papers; it is particularly successful for bookwork, being more open than the original series which is unusually dark, and it is also one of the best faces for photo-offset. It is a true "old face" design of medium weight and uniform contrast, free from thin hair-lines and sharply-pointed serifs. *Lengthened descenders are available in 12 pt.*
