

Christoffel van Dijk

Geboren ca. 1605 in Dexheim, gestorben 1669 in Amsterdam. Goldschmied. Ab 1640 in Amsterdam, seit 1647 als Stempelschneider und Schriftgießer. Seine Lettern, Matrizen und Stempel gerieten im Laufe der Jahre an verschiedene Gießereien, letztlich zu *Job. Enschedé in Haarlem*, wo sie im Schmelztopf endeten. Der Schriftenwerfer Jan van Krimpen (1892–1958), schuf 1937 eine van Dijk für die *Monotype*. Bei der *Dutch Type Library* wurde von Gerard Daniëls, auf der Basis des Werkes von van Dijk eine neue Schriftfamilie hergestellt, die DTL Elzevir.
