PICA SPINNER SCRIPT.

Card Fonts, 6A, 25a, \$3.25.

We take pleasure in introducing to our Friends and Patrons the "Pica Spinner Script," The popularity of this Face has been greatly stimulated by the addition of this, the minimum size of the Series. Printers will notice that its Compactness, Legibility and Freedom from Kerned Letters (enabling it to be set solid), makes it available in places where many other styles of Type would be impracticable. By the

### American System of Interchangeable Type Bodies

The Artistic Printer will be able to work it to advantage with the other sizes, producing effects that will be pleasing and fulfilling the requirements of good taste. The handsome appearance of the Pica Spinner Script speaks more decidedly than any words, but we must state that in addition to its Great Beauty it possesses Wearing Qualities no less desirable and important.

GREAT PRIMER SPINNER SCRIPT.

Card Fonts, 6A, 16a, \$4.35

We offer for the approval of the Craft this the Great Primer Size of our Spinner Script; its style is striking and suggestive of uncommon durability. By the absence of kerned letters, the hair lines are so well protected that they will stand as strong a pressure as any portion of the letter. It combines qualities Printers have long felt the need of in scripts, namely: Novelty, Gracefulness, Legibility and freedom from too much ornamentation, making it one of the most useful Scripts that has yet been designed. Used in connection with the other sizes in Circulars, Letter Heads, etc., very pleasing results may be attained.
